

Chapter 02-1: Body Structure and Directional Terminology
Shiland: Mastering Healthcare Terminology, 6th Edition

MULTIPLE CHOICE

1. The normal dynamic process of balance in the body is:
 - a. catabolism.
 - b. anabolism.
 - c. metabolism.
 - d. homeostasis.

ANS: D

REF: 28

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

2. The process of converting energy by breaking down substances is:
 - a. anabolism.
 - b. catabolism.
 - c. metabolism.
 - d. homeostasis.

ANS: B

REF: 28

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

3. The substance that holds organelles within a cell is the:
 - a. cytoplasm.
 - b. lysosome.
 - c. mitochondrion.
 - d. ribosome.

ANS: A

REF: 28

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

4. The structure that is the site of protein formation is the:
 - a. mitochondrion.
 - b. ribosome.
 - c. lysosome.
 - d. nucleus.

ANS: B

REF: 28

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

5. Which structure in a cell is responsible for conversion of nutrients to energy?
 - a. nucleus
 - b. mitochondrion
 - c. ribosome
 - d. cytoplasm

ANS: B

REF: 28

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Nondecodable Terms

6. One of the combining forms for the control center of the cell is:
- chondr/o.
 - cyt/o.
 - lys/o.
 - kary/o.

ANS: D REF: 34

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

7. Tissue that has a supportive function in an organ or tissue is:
- superficial.
 - deep.
 - stromal.
 - parenchymal.

ANS: C REF: 29

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Nondecodable Terms

8. Which type of tissue acts as an internal and external covering of the body?
- Epithelial
 - connective
 - muscular
 - nervous

ANS: A REF: 28

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

9. Bone, blood, and fat are examples of what type of tissue?
- Epithelial
 - connective
 - muscular
 - nervous

ANS: B REF: 29

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Nondecodable Terms

10. *Viscera* is the healthcare term for:
- cells.
 - organs.
 - tissues.
 - body systems.

ANS: B REF: 29

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

11. *Hist/o* is a combining form for:

- a. cell.
- b. organ.
- c. tissue.
- d. body system.

ANS: C

REF: 34

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

12. The pointed superior part of the lung is considered the:

- a. apex.
- b. fornix.
- c. antrum.
- d. body.

ANS: A

REF: 30

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Nondecodable Terms

13. An antrum is most similar to a(n):

- a. apex.
- b. fundus.
- c. hilum.
- d. sinus.

ANS: D

REF: 30

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Nondecodable Terms

14. The space within a tubelike structure is the:

- a. sinus.
- b. lumen.
- c. hilum.
- d. vestibule.

ANS: B

REF: 30

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Nondecodable Terms

15. A small space at the beginning of a canal is the:

- a. hilum.
- b. sinus.
- c. vestibule.
- d. fornix.

ANS: C

REF: 30

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Nondecodable Terms

16. What is the name of the organ part farthest from its opening?

- a. fundus
- b. hilum

- c. fornix
- d. apex

ANS: A REF: 30
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Nondecodable Terms

17. What is the term for the area where nerves and vessels enter and exit an organ?
- a. Antrum
 - b. lumen
 - c. vestibule
 - d. hilum

ANS: D REF: 30
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Nondecodable Terms

18. The largest or most important part of an organ is termed the:
- a. body.
 - b. lumen.
 - c. apex.
 - d. sinus.

ANS: A REF: 30
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Nondecodable Terms

19. *Myel/o* is a combining form for the:
- a. muscles and spinal cord.
 - b. bone marrow and spinal cord.
 - c. muscle and bone marrow.
 - d. spinal cord and nerves.

ANS: B REF: 32
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms

20. *Crur/o* is a combining form meaning the:
- a. knee.
 - b. back.
 - c. abdomen.
 - d. leg.

ANS: D REF: 38
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms

21. *Brachi/o* is a combining form for the:
- a. lung.
 - b. arm.
 - c. leg.
 - d. neck.

ANS: B REF: 38
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms

22. The *sural* area of the body refers to the:
- head.
 - chest.
 - neck.
 - calf.

ANS: D REF: 39
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Nondecodable Terms

23. *Cervic/o* is a combining form for the:
- abdomen.
 - neck.
 - chest.
 - arm.

ANS: B REF: 37
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms

24. *Phren/o* is a combining form meaning:
- air or lungs.
 - mind or air.
 - diaphragm or mind.
 - air or mind.

ANS: C REF: 51
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms

25. Back to front is:
- anteroposterior.
 - posteroanterior.
 - distoproximal.
 - proximodistal.

ANS: B REF: 41 OBJ: Positional/Directional
TOP: Word Parts & Decodable Terms

26. Positioning a patient to examine the abdomen would be placing the person in a ____ position.
- plantar
 - proximal
 - supine
 - prone

ANS: C REF: 44 OBJ: Positional/Directional
TOP: Nondecodable Terms

27. If a stroke on one side of the brain affects the opposite side, you would term its effect to be on the ____ side.
- a. anterior
 - b. posterior
 - c. contralateral
 - d. ipsilateral

ANS: C

REF: 42

OBJ: Positional/Directional

TOP: Word Parts & Decodable Terms

28. A patient with burns on her back has lesions on the ____ aspect of her body.
- a. anterior
 - b. ventral
 - c. posterior
 - d. proximal

ANS: C

REF: 42

OBJ: Positional/Directional

TOP: Word Parts & Decodable Terms

29. When John grabbed the handle of a hot pan on his stove, he sustained burns on the ____ surface of his hand.
- a. superior
 - b. palmar
 - c. plantar
 - d. pronate

ANS: B

REF: 38

OBJ: Positional/Directional

TOP: Nondecodable Terms

30. Which direction describes vessels that lead toward an organ?
- a. Afferent
 - b. efferent
 - c. medial
 - d. lateral

ANS: A

REF: 43

OBJ: Positional/Directional

TOP: Nondecodable Terms

31. The scrapes on the elbows of the child were described as ____ injuries.
- a. supine
 - b. superficial
 - c. superior
 - d. supinate

ANS: B

REF: 43

OBJ: Positional/Directional

TOP: Nondecodable Terms

32. The part of the esophagus that is farthest from its beginning at the throat is the ____ end.
- a. dorsal
 - b. distal
 - c. dextrad
 - d. proximal

ANS: B REF: 43 OBJ: Positional/Directional
TOP: Word Parts & Decodable Terms

33. A patient with a sinistocardia has his heart located to the ____ side of the body.
- a. front
 - b. back
 - c. right
 - d. left

ANS: D REF: 43 OBJ: Positional/Directional
TOP: Word Parts & Decodable Terms

34. A patient with bilateral pain hurts on:
- a. one side of her body.
 - b. both sides of her body.
 - c. the front of her body.
 - d. the back of her body.

ANS: B REF: 43 OBJ: Positional/Directional
TOP: Word Parts & Decodable Terms

35. A patient lying in a prone position is lying on her:
- a. belly.
 - b. back.
 - c. side.
 - d. arm.

ANS: A REF: 44 OBJ: Positional/Directional
TOP: Nondecodable Terms

36. One of the veterinarian's canine patients had a bad flea bite that was caudal to his shoulders. The physician knew that it was toward his:
- a. belly.
 - b. back.
 - c. head.
 - d. tail.

ANS: D REF: 42 OBJ: Positional/Directional
TOP: Word Parts & Decodable Terms

37. When a patient came in with numbness of her left arm and left leg, the physician noted that the leg numbness was on the ____ side.
- a. contralateral
 - b. ipsilateral
 - c. bilateral
 - d. dextrad

ANS: B REF: 42 OBJ: Positional/Directional
TOP: Word Parts & Decodable Terms

38. The abdominopelvic region that is immediately superior to the umbilical region is the ____ region.
- a. hypochondriac

- b. lumbar
- c. epigastric
- d. hypogastric

ANS: C REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

39. The abdominopelvic region that is inferior to the left lumbar region is the left _____ region.
- a. iliac
 - b. hypogastric
 - c. hypochondriac
 - d. inguinal

ANS: A REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

40. The abdominopelvic region that is medial to the lumbar regions is the _____ region.
- a. hypogastric
 - b. epigastric
 - c. umbilical
 - d. hypochondriac

ANS: C REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

41. Munro's point is located in the _____ quadrant.
- a. upper right
 - b. upper left
 - c. lower right
 - d. lower left

ANS: D REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Nondecodable Terms

42. McBurney's point is located in the _____ quadrant.
- a. upper right
 - b. upper left
 - c. lower right
 - d. lower left

ANS: C REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Nondecodable Terms

43. McBurney's point is the area in one of the abdominopelvic quadrants at which:
- a. if painful, may indicate gallbladder disease.
 - b. if painful, may indicate appendicitis.
 - c. surgeons introduce instruments to examine the mediastinum.
 - d. surgeons introduce instruments to perform laparoscopic surgery.

ANS: B REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Nondecodable Terms

44. The liver is in the _____ quadrant.

- a. upper right
- b. upper left
- c. lower right
- d. lower left

ANS: A REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Nondecodable Terms

45. The stomach and spleen are located in the _____ quadrant.
- a. upper right
 - b. upper left
 - c. lower right
 - d. lower left

ANS: B REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Nondecodable Terms

46. The plane that separates the sides is the _____ plane.
- a. coronal
 - b. frontal
 - c. transverse
 - d. sagittal

ANS: D REF: 50 OBJ: Planes
TOP: Word Parts & Decodable Terms

47. The plane that divides the body into anterior and posterior sections is the _____ plane.
- a. coronal
 - b. frontal
 - c. transverse
 - d. sagittal
 - e. both a and b

ANS: E REF: 50 OBJ: Planes
TOP: Word Parts & Decodable Terms

48. The _____ plane separates the nose from the toes.
- a. frontal
 - b. transverse
 - c. midsagittal
 - d. sagittal

ANS: B REF: 50 OBJ: Planes TOP: Nondecodable Terms

49. The *R* in *RUQ* refers to:
- a. rectum.
 - b. required.
 - c. retroperitoneal.
 - d. right.

ANS: D REF: 54
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Abbreviations

50. Patients with osteochondritis are having problems with which type of tissue?
- a. epithelial
 - b. connective
 - c. muscular
 - d. nervous

ANS: B

REF: 29

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

51. A patient with a buildup of fatty deposits in the lining of the arteries has a problem with the _____ of the arteries.
- a. hilum
 - b. apex
 - c. vestibule
 - d. lumen

ANS: D

REF: 30

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Nondecodable Terms

52. The patient's paranasal _____ (cavities in bone) were inflamed.
- a. hila
 - b. antra
 - c. lumina
 - d. apices

ANS: B

REF: 30

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

53. The x-ray films showed a blunted _____ (tip) of the right lung.
- a. apex
 - b. fornix
 - c. fundus
 - d. body

ANS: A

REF: 30

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Nondecodable Terms

54. Patients with coronary heart disease have a disorder of their _____ system.
- a. respiratory
 - b. endocrine
 - c. cardiovascular
 - d. integumentary

ANS: C

REF: 33

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

55. An endotracheal tube is placed _____ the trachea.

- a. above
- b. under
- c. within
- d. outside

ANS: C

REF: 34

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

56. Oscopes are used to examine the:

- a. ears.
- b. eyes.
- c. bones.
- d. umbilical region.

ANS: A

REF: 37

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

57. The combining form for the front is:

- a. arthr/o.
- b. antr/o.
- c. anter/o.
- d. atri/o.

ANS: C

REF: 42

OBJ: Positional/Directional

TOP: Word Parts & Decodable Terms

58. Warts on the bottom of a patient's foot are described as being on the ____ surface of the foot.

- a. inferior
- b. superior
- c. palmar
- d. plantar

ANS: D

REF: 39

OBJ: Positional/Directional

TOP: Nondecodable Terms

59. A dorsal cavity of the body is the ____ cavity.

- a. cranial
- b. thoracic
- c. pelvic
- d. abdominal

ANS: A

REF: 47

OBJ: Body Cavity

TOP: Word Parts & Decodable Terms

60. An infection of the ____ cavity is called *peritonitis*.

- a. cranial
- b. spinal
- c. thoracic
- d. abdominal

ANS: D

REF: 48

OBJ: Body Cavity

TOP: Word Parts & Decodable Terms

61. A patient came in with a mass of blood in the space between the lungs. That space is termed the:
- a. pleura.
 - b. mediastinum.
 - c. peritoneum.
 - d. diaphragm.

ANS: B

REF: 47

OBJ: Body Cavity TOP: Nondecodable Terms

62. The pleura surrounds the:
- a. stomach.
 - b. abdominal cavity.
 - c. thoracic cavity.
 - d. lungs.

ANS: D

REF: 47

OBJ: Body Cavity

TOP: Word Parts & Decodable Terms

63. The bladder is located in the ____ cavity.
- a. pelvic
 - b. thoracic
 - c. abdominal
 - d. cranial

ANS: A

REF: 47

OBJ: Body Cavity

TOP: Word Parts & Decodable Terms

64. The plane that separates the right and left lobes of the brain is the ____ plane.
- a. frontal
 - b. sagittal
 - c. transverse
 - d. midsagittal

ANS: D

REF: 50

OBJ: Planes

TOP: Word Parts & Decodable Terms

65. The inguinal region is the ____.
- a. loins
 - b. back
 - c. bellybutton
 - d. groin

ANS: D

REF: 37

OBJ: Abdominopelvic Quadrants & Regions

TOP: Word Parts & Decodable Terms

66. The opposite of superior is:
- a. palmate.
 - b. proximal.
 - c. inferior.
 - d. pronate.

ANS: C REF: 42 OBJ: Positional/Directional
TOP: Nondecodable Terms

67. A patient with a disorder of adipose tissue has a problem with which type of tissue?
- a. epithelial
 - b. connective
 - c. muscular
 - d. nervous

ANS: B REF: 29
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms

68. Building up substances for energy conversion is termed:
- a. anabolism.
 - b. catabolism.
 - c. metabolism.
 - d. homeostasis.

ANS: A REF: 28
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms

69. Paranasal sinuses are ____ the nose.
- a. under
 - b. surrounding
 - c. through
 - d. near

ANS: D REF: 37
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms

70. An antecubital bruise is on the front of the:
- a. hand.
 - b. foot.
 - c. arm.
 - d. leg.

ANS: C REF: 38
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms

71. Pain in an arm and leg on the same side of the body is termed:
- a. bilateral.
 - b. contralateral.
 - c. ipsilateral.
 - d. homeostasis.

ANS: C REF: 42 OBJ: Positional/Directional
TOP: Word Parts & Decodable Terms

72. *Celi/o* has the same meaning as:

- a. gastr/o.
- b. lapar/o.
- c. chondr/o.
- d. somat/o.

ANS: B REF: 47

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

73. The plural of hilum is:

- a. hilus.
- b. hila.
- c. hili.
- d. hilaе.

ANS: B REF: 30

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Pronounce/Spell

74. The plural of pleura is:

- a. pleurae.
- b. pleuri.
- c. pleures.
- d. pleurus.

ANS: A REF: 47

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Pronounce/Spell

75. The plural of lumen is:

- a. lumena.
- b. lumeni.
- c. lumenae.
- d. lumina.

ANS: D REF: 30

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Pronounce/Spell

76. The singular of viscera is:

- a. viscerus.
- b. viscus.
- c. viscer.
- d. visca.

ANS: B REF: 29

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Pronounce/Spell

77. One who studies cells is a:

- a. cytologist.
- b. cystologist.
- c. histologist.

d. pathologist.

ANS: A REF: 35

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

78. The epithelial tissue in the heart is called the:

- a. myocardium.
- b. endocardium.
- c. mediastinum.
- d. pleura.

ANS: B REF: 29

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

79. Hypochondriac literally translates as “pertaining to ____ the cartilage.”

- a. within
- b. through
- c. above
- d. below

ANS: D REF: 49

OBJ: Abdominopelvic Quadrants & Regions

TOP: Word Parts & Decodable Terms

80. *Thel/e* refers to the:

- a. lung.
- b. nipple.
- c. testis.
- d. windpipe.

ANS: B REF: 29

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

81. The combining form *cellul/o* means:

- a. cell.
- b. nucleus.
- c. cytoplasm.
- d. cell membrane.

ANS: A REF: 34

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

82. Which prefix means “bad, difficult, painful, abnormal”?

- a. meta-
- b. dis-
- c. mal-
- d. dys-

ANS: D REF: 17

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

83. *Kary/o* is a combining form for the:
- cytoplasm.
 - nucleus.
 - mitochondria.
 - lysosomes.

ANS: B

REF: 34

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

84. The *Q* in *LLQ* refers to:
- questionable.
 - quadriplegia.
 - quadrant.
 - query.

ANS: C

REF: 49

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Abbreviations

85. A visual examination of the abdominal cavity is a:
- gastroscopy.
 - mediastinoscopy.
 - phrenoscopy.
 - laparoscopy.

ANS: D

REF: 51

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

86. Which plane would divide the upper abdominopelvic quadrants from the lower abdominopelvic quadrants?
- frontal
 - sagittal
 - transverse
 - midsagittal

ANS: C

REF: 50

OBJ: Planes

TOP: Nondecodable Terms

87. Which suffix does NOT mean “pertaining to”?
- al
 - ia
 - iac
 - ic

ANS: B

REF: 51

OBJ: Recognize & Use Terms Associated With Organization of the Body

TOP: Word Parts & Decodable Terms

88. Medial to the inguinal region is the _____ region.
- lumbar

- b. umbilical
- c. hypogastric
- d. epigastric

ANS: C REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

89. Inferior to the hypochondriac region is the _____ region.
- a. iliac
 - b. umbilical
 - c. lumbar
 - d. hypogastric

ANS: C REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

90. Another term for the surface of the palm is:
- a. volar.
 - b. plantar.
 - c. sural.
 - d. crural.

ANS: A REF: 38 OBJ: Positional/Directional
TOP: Nondecodable Terms

91. The mediastinum is _____ to the lungs.
- a. lateral
 - b. superior
 - c. medial
 - d. inferior

ANS: C REF: 47 OBJ: Body Cavity
TOP: Word Parts & Decodable Terms

92. The term that means “away from an organ” is:
- a. anterior.
 - b. superior.
 - c. afferent.
 - d. efferent.

ANS: D REF: 44 OBJ: Positional/Directional
TOP: Nondecodable Terms

93. The nipples are on the _____ surface of the body.
- a. anterior
 - b. afferent
 - c. posterior
 - d. cephalad

ANS: A REF: 42 OBJ: Positional/Directional
TOP: Word Parts & Decodable Terms

94. The organ that is in the cranial cavity is the:

- a. brain.
- b. vertebrae.
- c. spinal cord.
- d. trachea.

ANS: A REF: 47 OBJ: Body Cavity
TOP: Word Parts & Decodable Terms

95. *Periapical* would mean pertaining to ____ a pointed structure.
- a. surrounding
 - b. in front of
 - c. through
 - d. within

ANS: A REF: 30
OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms

Chapter 02-2: Body Structure and Directional Terminology
Shiland: Mastering Healthcare Terminology, 6th Edition

MULTIPLE CHOICE

1. Which abdominopelvic region is directly superior to the umbilical region?
 - a. hypochondriac
 - b. epigastric
 - c. umbilical
 - d. lumbar
 - e. iliac

ANS: B REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

2. Which abdominopelvic region is directly inferior to the umbilical region?
 - a. hypogastric
 - b. epigastric
 - c. umbilical
 - d. lumbar
 - e. iliac

ANS: A REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

3. Which abdominopelvic region is directly superior to the left lumbar region?
 - a. left hypochondriac
 - b. epigastric
 - c. umbilical
 - d. left lumbar
 - e. iliac

ANS: A REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

4. Which abdominopelvic region is inferior to the right lumbar region?
 - a. right hypochondriac
 - b. epigastric
 - c. umbilical
 - d. right lumbar
 - e. right iliac

ANS: E REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

5. Which abdominopelvic region is directly superior to the iliac region?
 - a. hypochondriac
 - b. epigastric
 - c. umbilical
 - d. lumbar
 - e. hypogastric

ANS: D REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

6. Which abdominopelvic region is directly superior to the hypogastric region?
- a. hypochondriac
 - b. epigastric
 - c. umbilical
 - d. lumbar
 - e. hypogastric

ANS: C REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

7. Which abdominopelvic region is inferior to the right hypochondriac region?
- a. left hypochondriac
 - b. epigastric
 - c. umbilical
 - d. right lumbar
 - e. right iliac

ANS: D REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

8. Which abdominopelvic region is directly inferior to the epigastric region?
- a. hypochondriac
 - b. epigastric
 - c. umbilical
 - d. hypogastric
 - e. iliac

ANS: C REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms

9. Which abdominopelvic region is lateral to the epigastric region?
- a. hypochondriac
 - b. epigastric
 - c. umbilical
 - d. lumbar
 - e. iliac

COMPLETION

1. The process of converting energy by breaking down substances is _____.

ANS: catabolism

REF: 28 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms | Pronounce/Spell

2. The process of converting energy by continually building up and breaking down substances is _____.

ANS: metabolism

REF: 28 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms | Pronounce/Spell

3. The process of converting energy by building up substances is _____.

ANS: anabolism

REF: 28 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms | Pronounce/Spell

4. Which part of the cell is the control center? _____

ANS: Nucleus

REF: 28 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Word Parts & Decodable Terms | Pronounce/Spell

5. The plural of fundus is _____.

ANS: fundi

REF: 30 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Pronounce/Spell

6. The plural of lumen is _____.

ANS: lumina

REF: 30 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Pronounce/Spell

7. All three types of _____ tissue share the unique property of being able to contract and relax.

ANS: muscular

REF: 29 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Pronounce/Spell

8. The plural of viscus is _____.

ANS: viscera

REF: 29 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Pronounce/Spell

9. Which type of tissue includes cells that provide transmission of information to regulate a variety of functions? _____

ANS: Nervous

REF: 29 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Pronounce/Spell

10. Which type of tissue has an internal structural network? _____

ANS: Connective

REF: 29 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Pronounce/Spell

11. What is the part of an organ that is a recess, exit, or entrance of a duct into a gland or of nerves and vessels into an organ? _____

ANS: Hilum

REF: 30 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Pronounce/Spell

12. What is the term for the space within an artery, vein, intestine, or tube?

ANS: Lumen

REF: 30 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Pronounce/Spell

13. What is the term for the base of an organ or the part of a hollow organ farthest from its mouth? _____

ANS: fundus

REF: 30 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Pronounce/Spell

14. The plural of apex is _____.

ANS: apices

REF: 30 OBJ: Recognize & Use Terms Associated With Organization of the Body
TOP: Pronounce/Spell

15. The opposite of prone is _____.

ANS: supine

REF: 44 OBJ: Positional/Directional TOP: Pronounce/Spell

16. Another term for anterior is _____.

ANS: ventral

REF: 42 OBJ: Positional/Directional TOP: Pronounce/Spell

17. A term for toward the side is _____.

ANS: lateral

REF: 42 OBJ: Positional/Directional
TOP: Word Parts & Decodable Terms | Pronounce/Spell

18. What is the term for close or nearer to the point of attachment? _____

ANS: proximal

REF: 43 OBJ: Positional/Directional
TOP: Word Parts & Decodable Terms | Pronounce/Spell

19. Which cavity contains the stomach, liver, and intestines? _____

ANS: abdominal

REF: 47 OBJ: Body Cavity TOP: Word Parts & Decodable Terms | Pronounce/Spell

20. Which cavity holds the lungs? _____

ANS: thoracic

REF: 47 OBJ: Body Cavity TOP: Word Parts & Decodable Terms | Pronounce/Spell

21. What is the muscle that separates the thoracic and abdominal cavities?

ANS: diaphragm

REF: 48 OBJ: Body Cavity TOP: Pronounce/Spell

22. The region superior to the umbilical region is the _____ region.

ANS: epigastric

REF: 49 OBJ: Abdominopelvic Quadrants & Regions
TOP: Word Parts & Decodable Terms | Pronounce/Spell

23. Which plane divides the body horizontally into an upper part and a lower part?

ANS: transverse

REF: 50 OBJ: Planes TOP: Pronounce/Spell

24. Which plane divides the body at a slanted angle? _____

ANS: oblique

REF: 50 OBJ: Planes TOP: Pronounce/Spell

MATCHING

Match the following terms with their opposites.

- a. anterior
 - b. superior
 - c. medial
