

1. The first step in creating a speech involves determining the purpose of the speech.
  - A) True
  - B) False
  
2. Audience analysis is a systematic process of getting to know your listeners relative to the topic and the speech occasion.
  - A) True
  - B) False
  
3. The general purpose of a speech is to inform an audience.
  - A) True
  - B) False
  
4. There are two general speech purposes: to inform and to persuade.
  - A) True
  - B) False
  
5. “To inform my audience how glaciers are formed” is a specific purpose statement.
  - A) True
  - B) False
  
6. “The death penalty should be abolished because it does not deter crime, is extremely costly, and is cruel and unusual punishment” is a specific purpose for a persuasive speech.
  - A) True
  - B) False
  
7. A thesis statement is a short statement that clearly expresses the central idea of a speech.
  - A) True
  - B) False
  
8. Forming a specific purpose for a speech occurs after you formulate your thesis statement.
  - A) True
  - B) False

9. In the planning stage, a speaker can use the thesis statement as a guidepost to make sure that he or she is on track.
  - A) True
  - B) False
  
10. An effective speech should be organized around at least four or five main points.
  - A) True
  - B) False
  
11. Supporting material can include personal experiences.
  - A) True
  - B) False
  
12. Every speech has three major parts: an introduction, a body, and a conclusion.
  - A) True
  - B) False
  
13. An introduction serves to catch the audience's attention, introduce you and your topic, and preview the thesis and main points.
  - A) True
  - B) False
  
14. During the body of a speech, the speaker should alert the audience to the specific purpose of the speech.
  - A) True
  - B) False
  
15. The speech body contains the main points and subpoints of the speech.
  - A) True
  - B) False
  
16. Supporting material is used mostly during the body of the speech.
  - A) True
  - B) False

17. All main points should support the speech's thesis statement.
  - A) True
  - B) False
  
18. In the conclusion, the speaker should restate the thesis statement and reiterate how the main points confirm it.
  - A) True
  - B) False
  
19. Subordinate points in an outline are indicated by their placement below and to the right of the points they support.
  - A) True
  - B) False
  
20. Subpoints cannot be coordinate points.
  - A) True
  - B) False
  
21. Every main point or subpoint should have at least two other points coordinate to it.
  - A) True
  - B) False
  
22. Speakers need a working outline or a speaking outline, but not both.
  - A) True
  - B) False
  
23. Speaking outlines generally contain points stated in complete sentences.
  - A) True
  - B) False
  
24. Presentation aids are also referred to as visual aids.
  - A) True
  - B) False
  
25. In speechmaking, evidence and support are synonymous terms.
  - A) True
  - B) False

26. To deliver an effective speech, speakers should practice at least two times.  
A) True  
B) False
27. Topic selection will always be the second step in the speechmaking process, right after audience analysis.  
A) True  
B) False
28. Your speech may use visual aids or audio aids, but it should not include both.  
A) True  
B) False
29. Practicing the number of times recommended for a four-to-six-minute speech will take twenty to thirty minutes of actual practice time, figuring in re-starts and pauses.  
A) True  
B) False
30. Which step in the speechmaking process comes earliest in the process?  
A) selecting a topic  
B) determining the speech purpose  
C) developing main points  
D) composing a thesis statement
31. The first step in the speechmaking process is \_\_\_\_\_, and the last step is \_\_\_\_\_.  
A) selecting a topic; considering presentation aids  
B) analyzing the audience; practicing delivery of the speech  
C) stating the speech purpose; outlining the speech
